I have the pleasure to present my compliments and to inform you that the National COVID-19 Incident Management System has reached a decision **placing Moratorium on the flying of COVID-19 DEAD BODY** to Liberia. The transportation of infectious dead body poses threat of spreading infection among people and Liberia has instituted stringent measures including Dead Body Management to interrupt COVID-19 transmission.

In view of the above, you are requested to **STOP** the transportation of COVID-19 dead body to Liberia until further notice. The IMS is currently updating the COVID-19 travel protocol and it will be sent to you following completion.

Thanks for your support.

Kind regards.
